**ORGANIC  
COMFORT**

## THE PERSONA

Meet Sophie, green-conscious and soul-nurturing, deeply passionate about organic, healthy eating, and a work-life balance lifestyle.

She prioritizes self-love, making room for mindfulness and personal growth in her life, and views her home as a sanctuary for rest and self-expression. Her perfect day involves cozying up on the couch, enjoying quality TV time, and indulging in personal pursuits, finding contentment in the simple pleasures of life within the comforts of her own space.

## DESIGN RATIONALE

This concept reflects an interior design that emphasizes self-love, wellness, healthy living, and creating a welcoming and comfortable space for personal time at home. It's a design concept that promotes a sense of inner peace and self-care in the living environment.

One of the key design focuses is centered around the space near the couch, as it's one of her favorite places to hang out. We designed a storage cabinet behind the couch to serve as storage for her snacks, charging station, books, or anything she finds leisure in keeping inside. This keeps everything within reach around the couch, allowing her to comfortably stay in the cozy spot.

On the other side, we created a cost-conscious modular storage cabinet to be the feature wall of the house and also increase the storage space for her small studio apartment. As she values an organic and zero-waste lifestyle, this is where she can store and keep her reusable tools and items, and of course, decorative items that add to her personal touch.

# THE PERSONA

Liam, a dynamic lifestyle content creator with a passion for exploring and sharing his experiences with a wide audience. He thoroughly enjoys cafe hopping and providing reviews of their café adventures, offering insights into the latest trends and hidden gems.

He values the flexibility of remote work, allowing him to maintain his active lifestyle while producing content on the go. His love for zen & versatile interior allows the flexibility for him to style his home according to the latest trend & reflects his personality.

## DESIGN RATIONALE

The interior design for Liam's space would be a blend of modern, masculine, and Zen-inspired elements.

The interior would feature clean, straight lines and a minimalist aesthetic. Clutter would be minimal, with a focus on open and uncluttered spaces to create a sense of calm and tranquility.

The color palette would lean towards masculine shades, such as grays & black lines, with occasional pops of leather & stainless steel finish to give a more manly touch.

The space was designed for flexibility and multifunctionality, allowing the space to adapt to various needs, such as a comfortable workspace for remote work and a relaxing area for leisure and content creation, not only that, the clean minimalist palette also gives a versatile canvas for Liam to style the home base on his mood and latest design trend.

## THE PERSONA

Emily is a young graphic designer who exudes style and creativity in everything she does. Her personality is a delightful blend of fashion-savvy, nature enthusiast, and a true color embracer.

Emily is a vivacious and stylish individual who finds inspiration in the natural world and incorporates it into her vibrant and creative lifestyle.

Her passion for fashion, flowers, nature, and colors makes her a truly unique and inspiring personality.

## DESIGN RATIONALE

This interior design rationale reflects Emily's personality, one of the key design focus was the vivid design feature wall that reflects her own art direction in her graphics creation.

As Emily is a nature enthusiast, the styling of the unit was also inspired by the colors of nature's palette, light toned teak wood furniture, white and neutral decors, soft and comfortable linens that calms her mind as all these color reminds her love toward nature.

DESIGN HIGHLIGHT

CHIC  
GRAPHICS

A modern fusion of sophistication and style. Bold, eye-catching graphics seamlessly integrated into sleek, elegant spaces elevate the ambiance, offering a contemporary canvas for artistic expression. With a refined color palette and tasteful furnishings, this design trend brings a new dimension to interiors, effortlessly merging fashion-forward visuals with timeless sophistication, creating spaces that are both striking and elegant.

## DESIGN HIGHLIGHT

# VIVID GREEN

Vivid Green – a hue that breathes life and serenity into living spaces. Invite the outdoors in and infuse your home with the vivacious spirit of nature's most captivating shade.

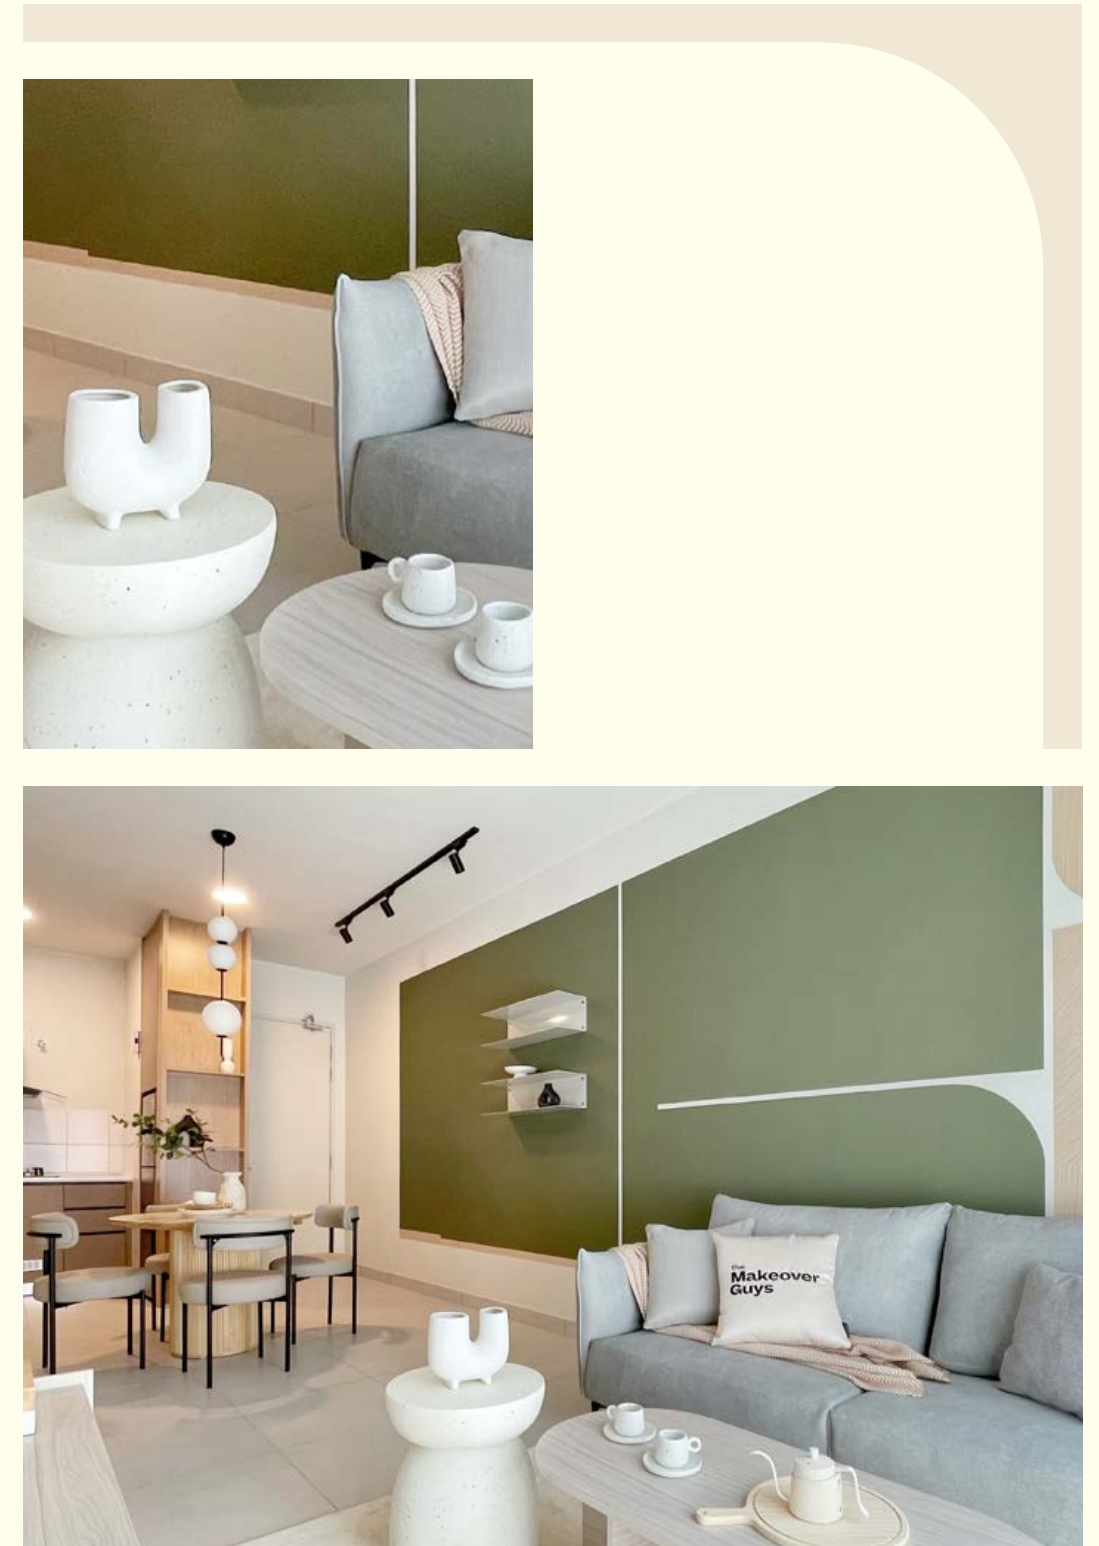

## STYLING HIGHLIGHT

*Painting emotions in  
hues of rejuvenation  
and awakening.*

# DINING

The dining area is the heart of a home, where functionality meets style. It's a space where it plays a pivotal role in fostering intimate gatherings, shared meals, and creating lasting memories.

*The dining area is where laughter echoes, stories unfold, and love is served at every meal.*

*Expression of one's  
creative freedom.*

When I was crafting this new design concept, I wanted to allow flexibility in interior design and freedom of expression while preserving the furniture and fittings. Renovations are costly, so the challenge was to figure out a way to give the space a fresh new look every now and then without breaking the bank.

We were also very inspired when we visited an art gallery where artists expressed their thoughts in canvas paintings. This is why we chose to incorporate canvas paintings alongside wallpapers and wainscoting for the feature wall.

This new feature wall consists of canvas designs of various sizes, and this enables us to try different arrangements to give our space a brand new look each time.
